## WHAT ABOUT ME?

I am a Front-End Web Developer based in Toronto. I have a keen eye for balancing design with accessibility and innovating old concepts with modern ideas. I am excited about working within the React framework but I'm flexible enough to tackle anything. Before I started coding, I was coordinating Live Events in Toronto. I excelled at building strong client relationships and always meeting strict deadlines. As a developer, I lean on those skills to create impressive work that exceeds expectations and is delivered on time.

## PRACTICED SKILLS

- HTML5, CSS3, SCSS
- JavaScript fundamentals, jQuery, React framework
- Working with RESTful APIs, and Firebase

- Responsive design that meets modern accessibility standards
- Paired programming, code reviews & team-based development
- Project scope management and time management

## TRANSFERABLE SKILLS

- Comfortable meeting strict deadlines
- Team player with a positive attitude and focus on problem-solving
- Calm and adaptable in fast-paced environments
